

Wine List

Welcome to the fantastic world of wines!

To promoting the Italian culture, but without forgetting the incredible variety of Portuguese wines and the new world, I had the privilege to create this wine list with my professional colleague Pedro Martin, thinking primarily about expanding the gastronomic experience of our kitchen and bringing the best pairing options that each dish requires.

It is an unpretentious wine menu with some pretentiousness. Are you still wondering? None of that. It's just a proposal where we always start with Italian recommendations from renowned producers, different regions, various wine profiles, so that you can enjoy this little piece of Italy, which is the legacy of the two brothers.

Feel free to ask for my assistance! It will be a pleasure to talk about the wines and help you choose!

"In vino veritas!"
